12 Action-Focused Modules

Just some of the course benefits...

This highly practical and tools-based course will give you:

- An evidence-based toolkit for becoming an outstanding leader of yourself and others
- Proven psychological tools for boosting engagement and motivation whilst working at home or in isolation
- The virtual team effectiveness model for elevated team performance
- A proven bank of ways to boost and maintain your mental, emotional, physical and purpose-driven energy
- A step-by-step stress management method
- The simple 3 step process for understanding and managing resistance to change in changing times
- The Self Belief Booster - simple tools to help you increase your sense of worth and value and overcome self doubt
- A method to redefine success in a way that benefits you and others
- Individual and Team Values Coaching tools to help you clarify what's most important to you and your team and how to activate those values.

5. Personal Impact Map

*Additional individual coaching available (extra cost)

Impact Map (each participant)

Module #	Key things I learned at module	Behaviours I want to change	Results (tangible changes made)
1	My performance depends on my interferences (Mine: I procrastinate)	When I decide to something; I do it. Example: Invite my team or call the customer	More work done in shorter time (more calls to customers. How many more?)
